The B.V. Bhoomaddi college of Engg and Technology, Hubli was till last year sanctioned a non recurring grant of Rs. 4,30,000/- towards its capital expdr. on bldgs and equipment. An addl. grant of Rs. 1,00,000/- has been sanctioned this year for meeting its capital expdr. on bldgs and equipment required for second & final year B.E course in civil Engg only. Vide G.R. E.D. no. PEC 1052 dt. 6-10-92. The D.T.E. has at perhaps taken into account this total grant of Rs. 11 lakh. That may perhaps be got confirmed from him. The accompanying bills may issue.

Request for financial assistance.

Sir,

With reference to Government endorsement, Edn.Dept.No.PEC.2552/43497-K, dated 3-10-52, I have to point out that the figure of the non-recurring grant quoted in last para of Govt.letter, Edn. Deptt.No.PEC-2552/43497-K, dated 3-10-52 in the case of Hubli College should be Rs.4,30,000/- as that is the total non-recurring grant-in-aid so far paid and not Rs.5,30,000. Perhaps the Govt. of India may be intimated accordingly.

Yours faithfully,

U/PK.9.10.

Subject:- Electric supply at Hubli.

.....

Sir,

With reference to the correspondence ending with your letter No.H-6/1003, dated the 4th November 1952, on the above subject, I am directed to state that the various complaints and suggestions made by you regarding the supply of electricity at Hubli, have since been examined and I am to observe as follows :-

(A) Rates :- The rates at present charged for the supply of energy at Hubli, are considered reasonable. Your request to charge low rates to industrial concerns, cannot, it is regretted, be granted, as the levy of a special very low rate for a particular type of consumer is bound to raise a storm of protest amongst the existing consumers, and may not be economical also.

(B) Overhead line to supply energy to the Bhoomaraddi College :- It is true as stated by you, that the supply lines have been laid upto the Commerce College, but in order to extend the supply to the Bhoomaraddi College, it will be necessary to erect the overhead line of nearly 2400 feet length upto the municipal boundary and a further line of 2900 feet beyond the municipal limit upto the College Premises. The contention that the Power House is bound to lay the supply line upto the Municipal limit is not at all correct, as it is not in consonance with the provisions of Clauses V and VI of the Schedule to the Indian Electricity Act, 1910. The Institution will have to bear the entire cost of the line, and Government cannot, it is regretted, bear it entirely, or in part. The Institution, if it so desires, may approach Government in the Education Department, for the grant of a subsidy to the extent of the cost of laying down the line.

(C) Inadequate supply of power :- As regards delay in giving supply and inadequate development of power, it is observed that most of the complaints have now ceased after the installing of the new sets, and the present position of supply at Hubli is satisfactory. Every effort is being made to strengthen the sub-stations feeding the different areas, and it will not be long before all the pending applications are complied with. Out of the 47 applications pending for power, several applications are likely to drop out when the actual time comes for taking the supply. In

view.....

view of the circumstances stated above, it is not considered necessary to transfer the Power House to the Grid Department.

Yours faithfully,

Assistant Secretary to the Government of Bombay, Public Works Department.
